Rationale for Task Assignment:

Ali was appointed Project Manager due to his leadership skills and experience in development, enabling him to oversee the project while also contributing technically. Savaş was assigned as a Developer, making the most of his strong coding abilities to implement core functionalities. Ege took on the role of Designer and Developer, applying his creative expertise in UI/UX design while also supporting development. Yankı was given the role of Tester and Developer, combining his keen eye for detail in quality assurance with his coding skills.
